

Greetings!

I am Richard Steves with Financial Gravity.

Financial Gravity specializes in saving small business owners **thousands of dollars annually on taxes** by meeting to provide them with a **FREE Tax Blueprint® Assessment**.

Read what one of our clients has to say...

*"No small business owner likes paying taxes. The Financial Gravity team saves me several thousand dollars per year during our annual tax planning sessions. That money goes right to my bottom-line and helps me sleep soundly!" - Dr. Ron Perkins, Orthodontist*

## **We saved him \$50,000 per year!**

How?

We specialize in **Strategic Tax Planning**. We search over 70,000 pages of IRS Tax Code to identify specific legal, moral, and ethical ways you can use the tax code to pay what you legally owe and nothing more! According to a recent Forbes Magazine article, 93% of ALL business owners are overpaying their taxes.

"But, wait, I already have a CPA!"

Well, here's the thing..., CPAs don't do Strategic Tax Planning; they're not trained to do that type of tax work. They only work historically.

When was the last time that your CPA came to you—without your having to ask—to show you a way to save you \$1,000 per year? How about **\$21,000** per year (*that's our average*)?

Our **Tax Blueprint® Assessment** comes with a guarantee on results! You CAN stop overpaying on your taxes. With our FREE assessment you have absolutely nothing to lose and only money to gain!

Best,

**Richard A. Steves**
